PAULINA STOCHNIAŁEK

Paulina Stochniałek was born in Poznań. She graduated from the WSB University in Finance and Accounting and from the Adam Mickiewicz University in Marketing and Management, with an MBA degree. In 2018, she was elected from the Koalicja Obywatelska list as the Councillor of the Wielkopolska Region for the years 2018-2023.

She has always been committed to Wielkopolska and its capital. She is a politician, an entrepreneur, a trainer, an activist and finally a speaker of the Wielkopolska Congress of Women. She actively supports women in their personal and professional growth. Paulina Stochniałek was involved in the project called "Civic Conference on Education", a response to the strike of teachers and education workers which began in spring 2019 and thus far has been the most serious strike in years. She is an entrepreneur with 25 years of professional experience in both public and private sector, where she worked as a financial and HR director in an international corporation, a chief accountant in the largest clinical hospital in the Wielkopolska Region, a university teacher, and recently as a president of an IT company. She has always been focused on people, and she considers her work for the local government as a service to the region residents.

Paulina Stochniałek is actively engaged in the work of parliamentary committees for education and science, public health and safety, economy, family and social policy, and budgetary policy. She was a chairwoman of the Education Committee and a deputy chairwoman of the Committee for Family and Social Policy. Also, she is a deputy chairwoman of the Koalicja Obywatelska Club of Councillors.

Since July 13, 2020, she has been a Member of the Management Board of the Wielkopolska Region and supervises the Department of Health, the Department of Education and Science, and a local government unit, namely the Regional Centre for Social Policy in Poznań.

Paulina Stochniałek believes that efficient management of medical facilities is a particularly difficult challenge these days. When serving local community, one should remember about those who are the most excluded from our societies, i.e. the disabled and their families, or the elderly. Open society connects people. Local government teaches us, both in professional terms and in terms of shaping pro-social attitudes, how to act for the benefit of local communities.

Privately, she is a wife, a mother of two children, a fan of football, climbing, and exploring the Wielkopolska Region by bike.
